SIZING

Ages 8-10 years = Size 4 netball
Ages 10+ years = Size 5 netball

A regulation size 5 Netball should measure 690mm-710mm in circumference and weigh between 400grams - 450grams

PRODUCT CARE

Be careful not to lean heavy objects against your ball or to sit on it as this places undue pressure on the stitching.

Don't leave your ball in a hot car or in direct sunlight as this can lead to a weakening and cracking of the rubber.

Before each use the PSI should be checked to ensure optimum performance.

To reduce wearing on your GILBERT netball try and avoid use on rough surfaces.

INFLATION

Pull the ball into shape to avoid piercing the bladder when inserting the needle.

Moisten the needle with glycerine, vegetable oil or soapy water and insert gently into the valve slowly, using a twisting motion.

Inflate ball using a hand pump or compressor to the recommended PSI noted on the ball.

Take care not to over inflate your netball as over inflation can lead to stitching coming apart and eggs forming in the ball.

Children under the age of 12 should be supervised at all times when using a high pressure air compressor (in addition, always follow manufacturer's instructions for use of electric compressors).

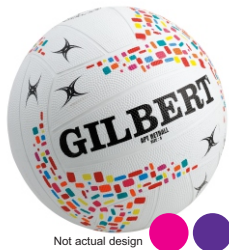

Our match and training balls are all fitted with a performance bladder. These bladders will retain air for a maximum of 5-7 days and will need to have air added to ensure maximum performance after that time.

BALL PUMPS AND INFLATION

DELUXE NEEDLES

\$5

FEATURES

- Pack of two *Gilbert* deluxe needles

PRESSURE GAUGE

\$13

FEATURES

- Ideal for all types of sporting balls

MULTI PURPOSE PUMP

\$12

FEATURES

- 12" *Gilbert* ball pump
- Inc. 4 assorted inflation needles and hose

DUAL ACTION PUMP

\$11

FEATURES

- Fast, *Gilbert* dual action inflation pump.
- Expels air through double action pushing & pulling of the handle
- Includes 2 inflation needles

ALUMINIUM DUAL ACTION PUMP

\$24

FEATURES

- High pressure dual action pump, suitable for all ball sports, inflatable toys and bicycle tyres
- Pumps up to 80 PSI
- Strong aluminium casing to withstand regular use
- Includes needle and bicycle adaptor

COMRESSOR

\$344

FEATURES

- Deluxe electric compressor
- Automatic cut-out switch to prevent overheating
- 1/8 HP & oil-less operation

Inflation

Initial inflation instructions:

Pull the ball into shape and insert the needle into the valve slowly so as to avoid puncturing the bladder.

Gradually inflate the ball using a hand pump or stirrup pump. If using a compressor or airline care must be shown not to over inflate as it can lead to damage to the ball or can cause the properties of the ball to change.

Check the pressure at regular intervals and ensure that the ball is inflated to 8 - 10 PSI depending on playing surface.

BALL BAGS & CARRIERS

BALL BAG

\$8

FEATURES

- Made from lightweight white mesh with toggle closure
- Holds approx 5 x size 5 balls

2 STRAP BALL BAG

\$32

FEATURES

- Mesh / nylon bag with 2 carry straps
- Holds approx 12 x size 5 balls

BALL BAG

\$10

FEATURES

- Made from lightweight black mesh with toggle closure
- Holds approx 10 x size 5 balls

BALL TROLLEY

\$170

FEATURES

- Chromed foldable frame
- Moves easily on 4 castors with detachable mesh bag
- Size 92cm x 86cm x 80cm

HEAVY DUTY BALL BAG

\$64

FEATURES

- Over-sized ball bag with heavy-duty straps
- Breathable heavy-duty mesh panels for enhanced airflow and reduced moisture build-up
- Holds up to 25 balls

BALL CAGE

\$80

FEATURES

- Lightweight pvc coated mesh cage can store approx 14 x size 5 balls
- Moves easily on 4 castors with hinged lockable opening
- Comes in flat pack form, assembled size 60cm square & 62cm high

PORTABLE BALL RACK

\$95

FEATURES

- Lightweight tubular pole construction for indoor use.
- Four castor wheels for easy mobility.
- Holds approx 16 x Size 7 or 20 x Size 5 round balls.
- Comes in flat pack kit form so some assembly required.
- 100cm(W) x 134cm(H).
- Base depth from castor is 44cm
